Mako Offshore

The Parrot Beak Shears are heavy-duty hydraulic cutting tools designed for demanding industrial applications. Featuring a built-in booster, they deliver powerful cutting performance in a compact and lightweight package. With a wide opening width and the ability to cut solid bar material up to 32 mm, these shears are ideal for high-pressure cutting tasks in harsh or remote environments.

Key Features

- Robust design for industrial use
- Integrated hydraulic booster
- Cuts solid bar material up to 32 mm
- Compact and portable (only 14.9 kg)
- High output pressure from low input
- 260 mm wide cutting jaw

Technical Specifications

Specification	Value
Opening Width	260 mm
Weight	14.0 kg
Max Cutting Capacity	Ø32 mm (solid bar)
Power Input	170 bar
Power Output	700 bar
Built-in Booster	Yes (up to 690 bar)
