Webtool – RCV 190

Heavy duty wire rope cutter designed for use in severe working conditions. Hydraulically operated anvil for easy ROV deployment. Robust plated steel and stainless steel construction. All steel components are electroless nickel plated to resist corrosion. Long blade life ensures that tool maintenance is kept to a minimum. For subsea operations it can be equipped with our lift frame, that has a built in hot stab / receptacle and intensifier for easy integration for subsea operations.

Specifications

- Dimensions – 955 x 718 x 280
- Approx weight – 300kgs
- Cutting capacity – Maximum Ø190mm wire rope of 1880N/mm² grade
- Can be used at any water depth
- Suitable for cutting wire rope, cables and umbilical's

Hydraulic Specifications

- Max input anvil - 210 bar
- Max input cylinder - 690 bar

Connections

- Cut – 4 JIC
- Retract – 4 JIC
- Anvil in – 4 JIC
- Anvil Out – 4 JIC
